## ANNUAL REPORT 21-22

AGM date:  
Monday 12<sup>th</sup> September 2022

## **WELCOME TO THE 2022 AGM THE CHAIRMAN'S REPORT**

Dear members,

It is a great privilege to have been appointed Chair of England Boxing and it is in that capacity I welcome all our members to the 2022 AGM. I am pleased to report that boxing in England is returning to a healthy position, with club affiliations and member registrations now reaching record numbers. To support this boom, we need a strong national governing body and there has been significant progress in its funding, staffing and leadership. As well as a new Chair, we have a new CEO, Jerome Pels, who is an experienced and capable leader. His report below details how we aim to move forward.

It has been some time since our last AGM in 2019. Whilst it would have been preferable to have gathered sooner, our sport, and the wider world, has been dealing with the Covid-19 Pandemic since early 2020. As you will know, the effect of the pandemic on boxing has been particularly acute, with the sport having been effectively dormant during a large part of the last two-and-a-half years. Combat sports have also been the most severely affected of sports in terms of their recovery, being subject to more stringent restrictions than other sports, and these have only been lifted relatively recently. Those challenges, combined with the leadership changes at England Boxing over recent months, have led to the timing of this AGM, where we will further update you on matters since our last meeting, as well as look ahead to the future.

Boxing in England could not exist without the huge amount of work done by volunteers throughout the country. I would like to thank all of you who give so generously of your time to support boxing and its associated activities across the board. In particular, I am truly grateful to all our volunteer officials for the amazing job that they do in supporting our sport across the country, day and night, at every level. Quite simply, no competition could take place without your service. Thank you, also, to the club and regional volunteers, coaches, doctors and dedicated England Boxing staff for their efforts.

I would also like to sincerely thank our outgoing Chair and my predecessor, Caspar Hobbs, for his sterling work over two full terms, eight years in total, in transforming England Boxing to what it is now – a modern-facing, effective organisation.

Finally, I would like to add a note of caution. Boxing's status as an Olympic sport is under threat due to the IOC's concerns around the International Boxing Association's governance, financing and refereeing and judging systems. We are engaged with other like-minded countries' national federations to drive change at IBA to ensure continued participation, but the risk is a serious one. We will report further in due course.

I look forward to meeting those of you who are able to attend the AGM and wish you all – coaches, clubs, officials, volunteers and boxers – success in the year ahead.

Richard Brooke  
Chairman

## **ENGLAND BOXING CHIEF EXECUTIVE'S REPORT**

The last 36 months have been one of the most significant periods of global change, challenge and transformation the world had ever seen. Looking back now, writing this report, little did any of us know how much the months after those early weeks of the global pandemic would transform our world and the way we would work but also deal with sport.

We had no idea how lives around the world would be impacted; how the makeup of the traditional sporting environment and the way our way of operating a governing body would be needed to be reshaped; how our clubs would become resilient; how the conventional structures of our organisation would be challenged; and how critical technology was going to be to our lives every day.

But we have demonstrated our resilience and worked hard to support each other on an unpredictable journey. Fortunately, we now have 'restarted' sport and things are getting back to normal. We are focused on the future and are taking the learnings of the last couple of years in working smarter and communicating using modern technology to progress our sport. I would like to thank all staff and volunteers in boxing for their relentless determination to deliver for our boxers and keeping things running in the most of challenging times. This report gives an overview of our progress.

### **England Boxing Strategic Plan**

To support National Governing Bodies and other system partners, Sport England provided an extension to their 2017-21 funding agreements to include the 2021-22 year. This decision was made primarily as a result of the Covid-19 Pandemic and the impact it had on sport and its recovery.

In total, combat sports (including boxing) were dormant for an 18-month period and, although socially distanced and controlled training could take place, sparring and competition restrictions were not lifted until September 2021.

During the dormant period we worked extensively with our clubs and members from a funding/survival and recovery perspective whilst promoting innovative ways of continuing to operate away from the traditional gym environment. These included:

- Box-In-Mind Bitesize courses
- Strava Running Challenge
- Champions' Checklist
- Wednesday Wellbeing features
- #MyBestBout, #SaveOurSports #LockdownLegends, #KOCovid-19 campaigns
- TIF case studies
- Shadow boxing drills
- What I'm doing during lockdown videos
- Covid-19 newsletters.

Alongside this work, we spent a large period of the Covid-19 period engaged in a strategy review, which included speaking and engaging with over 150 clubs and 1,000 people from the boxing community.

In December 2021, we published our new strategic plan for the 2022-27 period, including our vision, mission and headline objectives which aligned to Sport England's 'Uniting The Movement' strategy and set the direction of travel for the sport for the next five years.

### Vision

Inspiring and Transforming Lives Through Boxing

### Mission

To support and collaborate with our network of clubs and partners to enhance amateur boxing at all levels and in all communities throughout the country.

### Headline objectives

1. A Thriving Boxing Community
2. An Inclusive, Diverse and Accessible sport
3. An Inspirational and Aspirational Competition & Talent pathway
4. A Respected and Valued NGB

Importantly, our new strategy is underpinned by five 'principles of ethical behaviour' as outlined below:

- Understanding the needs of everyone involved in boxing and, through learnings, provide appropriate support to maximise their involvement
- Initial and continual education to ensure everyone understands the role they play and how they can progress through the sport
- The right for everyone in the sport to enjoy boxing in a safe environment
- Providing support, guidance and promoting the physical and mental health benefits of the sport
- Where appropriate, removing barriers to ensure everyone in every community can access the sport.

As a central theme of our work, our primary development priority is to cement our position as a sport that is centrally placed to tackle inequalities and, in addition to adopting an 'always learning' stance internally, we will look to share the success that boxing has from a community cohesion perspective with our members, partners and, through Sport England, the wider sports sector.

In a show of faith and to support our ambitious plans, Sport England have invested £6.8m of government and National Lottery funding into England Boxing which, over the next five years, will allow us to play a foundational role in the sport and physical activity sector, as well as allowing us to level up access to the sport across the country.

Together with our affiliated clubs, members and partners, England Boxing can help build a brighter future for the sport, which is underpinned by a thriving boxing

community who are making the sport inclusive, diverse and accessible to anyone to maximise their involvement.

## **National Championships**

Since the resumption of competitions post-pandemic, we have delivered a full programme of 10 Championship formats resulting in a total of over 400 new national Champions in the period September 2021 to June 2022.

We would like to thank the regions, the clubs, the boxers, officials, and the England Boxing staff for their assistance towards an incredible achievement in successfully delivering the programme of events across the past 10 months, and we are all looking forward to the 2022-23 season of events.

## **Our Online Presence**

The postponed Tokyo 2020 Olympic Games provided a great opportunity to showcase amateur boxing, and the interest was clear from our social media figures.

Staged in July and August 2021, it provided best-ever weekly engagement on England Boxing's Facebook channel, while enhanced coverage of the National Championships at various age groups saw likewise on Instagram, which had passed 48,000 followers by the start of April 2022.

From the end of March 2021 through to the start of April 2022, the England Boxing website – first port of call for details on competitions, courses, England Talent, technical and rules, club information and funding – attracted more than 469,000 users, 880,000 sessions and two million page views.

England Boxing launched a new TikTok account in mid-March 2022 in a bid to better engage with the teenage boxers that are a key component of membership, it grew quickly to attract more than 5,000 followers in its first month of existence.

## **Workforce**

Workforce development went into 2021-22 season with a waiting list of over 1,000 people who had booked on to courses that had been cancelled due to the Covid-19 Pandemic. With the support of England Boxing Coach Educators, regions, and clubs, we were able to safely reintroduce face-to-face Coach Education courses in July 2021. Between July 2021 and March 2022, England Boxing ran 72 courses, delivering to 365 coaches.

England Boxing Coach Education courses are now running as normal without restrictions, and, since clearing the Covid-19 waiting list, we have continued to see a considerable rise in demand for Level 1 courses across all regions, resulting in an additional 24 courses being laid on.

Level 1 refresher courses were re-launched online, which is working well and increasing the level of bookings.

In an effort towards becoming more environmentally aware, all coach education manuals and certificates are now available as an electronic download only, with all physical copies being discontinued.

## **Membership and Members**

The 2021-22 season was a fantastic one for membership, with the number of affiliated clubs rising to 995 and individual membership to 25,315, which puts our sport in a stronger position after the Covid-19 Pandemic. The support provided by regions, clubs, officials, coaches, boxers and volunteers has been immeasurable, especially during and after the crisis, and continues to unite and build our expanding boxing family.

The Vault is England Boxing's Membership application and information centre. We have been able to continuously develop and improve functionality using regular feedback from our membership. The developments which have taken place include moving previous combat experience declarations online for further safeguarding of our sport and digital certificates after course completion, which gives a permanent digital record and works towards our environmental policy. We continue to work on further developments of The Vault to enhance the membership experience and will share further details of new and updated features in the coming months.

## **Talent**

<b>Year</b>	<b>Major International Medals</b>
2019	27
2020	Did not attend internationals due to Covid-19
2021	Did not attend internationals due to Covid-19
2022	7 (from one competition, with three to follow)

In 2019, exactly 200 boxers (from Schools to Elite) represented England in an international bout during the calendar year, of which 54 attended a major international championship. By way of comparison, 147 boxers represented England in 2018.

Sadly, the Covid-19 stopped the momentum of Team England's success on the international stage when all scheduled international competition was cancelled in 2020. A number of major championships were then rescheduled in 2021. However, the England Boxing Board took the difficult decision not to enter any teams due to a number of different factors.

There was also no recruitment for the England Talent Pathway in 2020 or 2021. This was largely due to the restrictions put in place by the Government, which prevented National Championships taking place until the Autumn of 2021. In place of pathway recruitment, England Talent hosted a series of 'Champions Days' in late 2021 to celebrate the achievements of boxers.

During the 2020 and 2021 period, when little face to face activity was permitted, England Talent took the opportunity to launch a new initiative virtually for boxers focusing on mental health, a programme called Your Resilience. The time was also taken to develop pathway coaches and boxers by conducting a series of virtual sessions covering subjects such as performance analysis, communication between rounds, nutrition, S&C, Equality, Diversity and Inclusion training and the extremely popular running challenges set using the Strava app.

Over this period of time, success could also be measured in the number of boxers invited to assessment and progressing on to the GB World Class Programme.

Since 2019, there have been two additions to the England Talent Pathway in outreach programmes – Women's Aspire and Schools Academy. Both programmes have grown in strength providing development opportunities for boxers and coaches and a taste of what it is like to be on the England Talent Programme. It has also strengthened engagement with the regions.

## **Community**

The 2021/22 season was one of re-engagement, continued outreach and further support for England Boxing clubs, many of which were still recovering or dealing with the ongoing impact of Covid-19 lockdowns.

With help from Club Support Officers (CSOs), those clubs who were facing particularly challenging times both during and post-lockdown were able to access funds with the help of the CSO team. A key example of help that was made available to clubs during the 2021-22 season was England Boxing's second round of the Tackling Inequalities Fund, funded by partners Sport England.

In total, 82 EB clubs serving the most disadvantaged people in their respective areas across the country (specifically in areas of IMD 1-4 deprivation) received between £500-£2,500 in support of their various projects.

As part of this Fund, 19 of those clubs were focused specifically on delivering projects that would support the disabled community to access and get involved with amateur boxing as part of the EB Inclusive Activity Programme.

All were trained in disability coaching by our partners at the Activity Alliance and have gone on to deliver outreach training sessions with a variety of groups from the disabled community, including those living with Parkinson's disease, deaf and blind people and young people with learning disabilities.

The Female Coaching Development Programme (RAIR) saw the end of its first year with 10 women completing the full year of development opportunities as part of England Boxing's community of practice, coach development days and residential training camps.

The Women's Aspire sessions also continued to take place, with women and girls from across the country coming together to train, learn from one another, grow in number and develop their boxing and coaching experience.

Further to this, delegates from across the country attended England Boxing's first ever Women in Boxing Conference in December 2021, at Loughborough Sports Park, which saw almost 100 people come together in celebration of women and girls' boxing.

The 2021-22 season also saw the return of England Boxing's Clink to Club programme, which launched initially in January 2020 before having to be put on hold due to ongoing Covid-19 restrictions put in place by Her Majesty's Prison Service. England Boxing staff re-engaged with HMP Brixton residents and staff in October 2021 by delivering their updated programme, and has continued to engage with residents post-release by linking them up with clubs and projects outside the prison walls.

Clubs also continued to receive reactive and proactive assistance from our team of Club Support Officers throughout this season, by offering guidance and advice on facility, governance, training, development and funding related issues at a time that clubs needed it most.

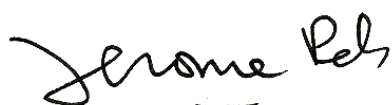

CSOs were also a regular feature at all of the England Boxing National Championships, providing behind-the-scenes support to ensure that clubs and athletes had the best experience possible.

## Financial

It has been a challenging year from the perspective of the finance side of things, due to the Covid-19 lockdown, which impacted heavily on most of sport's governing bodies. England Boxing were completely reliant on Sport England during this time, with no other form of income, which resulted in a loss of £48,992 (see statutory accounts at the end of this document) during the financial year ending March 2021 – the biggest deficit since 2017.

The finance department, working with the audit sub-committee, took decisive action and scenario planned at the start of the lockdown by creating different versions of the financial forecast using different scenarios of when the lockdown could end. This allowed prompt action in terms of adjusting spending and cost reduction each time the government relaxed or imposed restrictions. As a result of these actions, England Boxing did not need to access Sheffield City Council or any government grants during this period.

Looking ahead, the Sport England core funding for the next five years has been approved, which allows further future planning. Since the removal of the Covid-19 restrictions, operations at England Boxing have returned to normal, resulting in the finances reverting back to a healthier state, with a small surplus estimated for the year ending March 2022.

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 MARCH 2021

---

1. **STATUTORY INFORMATION**

England Boxing Limited is a private company, limited by guarantee, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. **ACCOUNTING POLICIES**

**Basis of preparing the financial statements**

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary assets in these financial statements are rounded to the nearest pound.

The principal accounting policies adopted are set out below.

**Going Concern**

In common with virtually every other business in the country, the Company has been experiencing the effects of the Coronavirus pandemic. Whilst the full impact of this exceptional situation on the Company cannot be assessed with complete certainty at the current time, the Directors believe they have taken all possible steps to protect the Company including accessing relevant Government assistance.

At the time of signing these accounts the Directors are of the opinion that the Company will remain viable for the foreseeable future and therefore these Financial Statements have been prepared on the Going Concern basis.

**Turnover**

The income of the company consists of clubs' and individual's affiliation/registration fees, grants and donations, together with monies raised from tournaments and the sale of goods towards running boxing events.

Affiliation and registration fees are payable annually, are accounted for when notified by the individual clubs that they are due and deferred to the extent that the affiliation income relates to the following financial year.

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery	-	25% on cost
Fixtures and fittings	-	20 - 25% on cost

**Taxation**

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

NOTES TO THE FINANCIAL STATEMENTS - continued  
FOR THE YEAR ENDED 31 MARCH 2021

---

2. **ACCOUNTING POLICIES - continued**

**Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

**Pension costs and other post-retirement benefits**

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

**Honorarium**

An honorarium is an ex gratia payment made to a person for their services in a volunteer capacity, or for services for which fees are not traditionally or legally required.

An honorarium is typically a payment made on a special or non-routine basis to an individual who is not an employee of the company, to recognize or to acknowledge the contribution of gratuitous services to the company.

**Operating leases**

Rentals paid under operating leases are charged to the profit or loss on a straight line basis over the period of the lease.

**Judgements and key sources of estimation uncertainty**

In the application of the company's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

3. **EMPLOYEES AND DIRECTORS**

The average number of employees during the year was 22 (2020 - 20 ) .
