Introduction:

England Boxing is the national governing body for boxing. It is responsible for the governance, development and administration of boxing in clubs and competitions. It also represents England as a member of the International Boxing Association (IBA) and the European Boxing Council (EUBC).

As a national governing body, England Boxing is responsible for all the administration, development and promotion of Olympic-style boxing throughout England. It is a non-profit organisation and is thus overseen by a board of directors.

England Boxing represents more than 25,000 members across over 990 affiliated clubs. Building on a large base of weekly participants (150,000*), England Boxing is committed to maximising the potential of the sport through the legacy of successful London 2012 Olympic Games.

4 global is developing a central and standardised information management system that enables the England Boxing to deliver their following priorities based on the strategic review undertaken in 2014:

1. Target and engage key customer segments
2. Improve the Club environment
3. Embrace and educate volunteers
4. Change events calendar and format
5. Develop commercial program

The system aims to integrate with sector wide modules and add value through greater alignment of information and added value through insight (and impact) sharing.
