Introduction

- i. This rule book is valid from 1st January 2026.
- ii. This document is not a Handbook and, as such, should not be treated as a comprehensive source for all the relevant Policies and Procedures of England Boxing, most of which can be found on the [England Boxing Website](#).
- iii. For the avoidance of doubt, any breach of any requirement, rule, or similar, of this Rule Book can form the basis of a “complaint”, per the “[England Complaints Policy & Procedure](#).”
- iv. Users are reminded that the Care and Welfare of the Boxers is paramount at all times whether this be in training, preparation, or competition.
- v. When individuals become members of England Boxing, they commit to abide by the rules, regulations and policies of England Boxing in their entirety. Section 11 – Knockdown

11.1. Knockdown

- The Boxer hangs helplessly on the ropes as the result of a blow or series of blows.
- The Boxer is outside or partly outside the ropes as the result of a blow or series of blows.
- Following a hard punch, the Boxer has not fallen and is not lying on the ropes, but is in a semi-conscious state and cannot, in the opinion of the Referee, continue the bout.

11.1.2. In the case of a Knockdown, the Referee must say "stop" and then begin to count from one (1) to eight (8) if the Boxer is fit to continue; and count from one (1) to ten (10) if the Boxer is unfit to continue. The Referee will count with intervals of one (1) second between the numbers and will indicate each second with the hand so that the Boxer who has been knocked down may be aware of the count. Before the number "one" is counted, an interval of one (1) second must have elapsed from the time when the Boxer is knocked down, and the time of announcing "one".

11.1.3. If a Boxer is knocked down, the Boxer's opponent must at once go to the neutral corner as designated by the Referee and remain there until the Referee allows the Boxer to leave. If the opponent does not respect this, the Referee must suspend the count until the opponent complies with the command.

11.1.4. When a Boxer is knocked down as the result of a blow, the bout must not continue until the Referee has reached a mandatory count of eight (8), even if the Boxer is ready to continue before then, or the round has come to a close.

11.1.5. If both Boxers are knocked down at the same time, the count will be continued as long as one of them is still knocked down.

11.2. Compulsory Count Limits

In case the Boxer is not able to come back within the above mentioned timeframe, this Boxer is deemed to have lost the bout by Referee Stops Contest (RSC).

11.4.2. In the case of a Boxer being pushed out of the ring, the Boxer must be allowed sixty (60) seconds to come back into the ring (no eight (8) count needed). In case the Boxer is not able to come back within the above-mentioned timeframe or enters the ring but does not look fit to continue, the Referee will ask the Ringside Doctor to examine the Boxer.

11.4.3. If the Ringside Doctor declares that the Boxer is unfit to continue, the opponent of the Boxer will lose by disqualification (DSQ).

11.4.4. If the Ringside Doctor declares that the Boxer is fit to continue, the Referee will issue a warning to the offending Boxer and resume the bout.

11.4.5. In the case of a Boxer falling out of the ring due to their own accord, the Boxer must be allowed thirty (30) seconds to come back into the ring, without an eight (8) count. In case the Boxer is not able to come back within the above-mentioned timeframe, such Boxer is deemed to have lost the bout by Referee Stops Contest (RSC).

11.5. Knock Out

11.5.1. After the Referee has counted to “ten” (10), the bout ends and must be decided as KO. The Referee may stop the count if, in their opinion, the Boxer is in immediate need of medical attention.

11.6. Boxer Knocked Down at the End of the Round

11.6.1. In the case of a Boxer being knocked down at the end of any round, the Referee must continue to count until the Boxer is no longer knocked down irrespective of the end of the round.

11.6.2. Should the Referee count up to ten (10), such Boxer will be deemed to have lost the bout by KO. The sounding of the bell will not save the Boxer.

11.7. Second Knock Down without further punches

11.7.1. If a Boxer is knocked down as the result of a punch and the bout is continued after the count of eight (8) has been reached, but the Boxer falls again without having received a further punch, the Referee may continue the count from the count of eight (8) up to the count of ten (10).

Annex B1

EMERGENCY ACTION PLAN FOR A MEDICAL EMERGENCY INVOLVING A BOXER ("EAP1")

If a Boxer is involved in a medical emergency whilst competing in an England Boxing event, tournament, or competition ("**Boxing Event**"), it is important that the Boxer receives swift and effective medical attention. To give appropriate support to the medics treating the Boxer, the officials at a Boxing Event must know how to respond in case of emergency.

A Medical Emergency is any situation where the Ringside Doctor or paramedic declares the condition of the Boxer to be a medical emergency.

This EAP1 sets out the preparatory action that must be taken before any Boxing Event, and, gives guidance on how to respond to a Medical Emergency involving a Boxer. This EAP1 should be read in conjunction with EAP2 (Medical Emergency Involving an Official or Spectator) and Annexes A1, A2, A3, A.4 and A.5 which outline the general duties of designated England Boxing Officials.

BEFORE A BOXING EVENT

1. The **Supervisor** has overall responsibility for implementing the procedures contained in this EAP1.
2. During the Technical Meeting / R&J Briefing (see Annex A1) the **Supervisor** must:
 - a) provide a copy of the Medical Emergency Response Plan (below) to all England Boxing Officials in attendance and ensure that each person referred to in this EAP1 knows their role in preparing for and dealing with a Medical Emergency.
 - b) appoint an individual who is familiar with the venue to meet any ambulance called to attend a Medical Emergency and guide the paramedics to ringside (the "**Appointed Individual**"). The Appointed Individual must have a fully charged mobile phone with network service, or unfettered access to a landline at the venue, during the Boxing Event.
 - c) ensure that the **Ringside Doctor** is equipped, competent and confident to resuscitate a Boxer. If not, the **Supervisor** must ensure that a paramedic is also present throughout the Boxing Event.
 - d) Liaise with the **Appointed Individual** to ensure there is emergency access to and from the boxing ring and that such access remains unobstructed throughout the Boxing Event.
 - e) Ensure that they have identified (and have the contact details of) the nearest A&E department and the nearest hospital with a specialist head injury unit. The **host club** must notify the relevant hospital(s) that a Boxing Event is taking place.
3. The **Supervisor** must ensure the **Ringside Doctor** is in position before each bout begins and that all necessary emergency equipment (including Personal Protective Equipment (PPE)) is easily accessible to the **Ringside Doctor**. Any person treating the **Boxer** should use PPE¹ when doing so.

¹ This should include as a minimum wearing gloves.

MEDICAL EMERGENCY RESPONSE PLAN

1. If a Boxer requires urgent medical treatment whilst in the ring the **Ringside Doctor** must be given unobstructed access to assess the Boxer.
2. The **Ringside Doctor** will assess whether the injury or condition of the Boxer is a Medical Emergency and, if so, will inform the **Supervisor** who should be ringside awaiting this information.
3. The **Supervisor** should instruct the **Appointed Individual** to call 999 immediately providing the following information to the ambulance service:
 - a) The location of the Boxing Event (including the postcode) and telephone number from which they are calling;
 - b) Clear directions to the venue confirming where the ambulance will be met; and
 - c) Brief description of the Boxer's condition (e.g. conscious/unconscious, breathing/not breathing, head injury) as this will allow the ambulance to assess the urgency of the situation and which hospital the Boxer may need to be taken to.
4. The **Appointed Individual** should meet the paramedics upon arrival at the venue and guide them to the Boxer.
5. If requested by the **Ringside Doctor**, the **Supervisor** should ask the **Announcer / MC** to call for any qualified trauma professionals to make themselves known at ringside.
6. The **Supervisor** should ask the **Announcer / MC** to announce that:
 - a) All live streaming of the bout should be cut whilst the Medical Emergency is ongoing; and
 - b) Spectators should not film the treatment of the **Boxer** on their mobile phones or similar equipment.
7. Unless requested by the **Ringside Doctor** no other person is to enter the ring. The **Referee** should ensure that the ring remains clear with assistance from security personnel if needed.
8. The **Supervisor** should gather any relevant documentation on the Boxer and make this available to the **Ringside Doctor** (this should include the Digital BCR1 and Pre-Bout medical form) The **Boxer's Coach** should be positioned ringside within hearing distance of the **Ringside Doctor** to answer any questions about the **Boxer**. The **Boxer's Coach** should inform the **Ringside Doctor** if there is any other information, he/she should be aware of (e.g. allergies to medication and religion if known).
9. The **Supervisor** should ask the **Boxer's Coach** to ensure that next of kin are informed of (i) the incident as soon as possible; and (ii) what hospital the **Boxer** is being sent to if known.
10. The **Supervisor** must decide whether the venue should be cleared whilst the Boxer is being treated. If the **Supervisor** decides that the Boxing Event cannot continue, the **Announcer / MC** should make a public announcement that the Boxing Event cannot continue and request that spectators clear the venue as quickly as possible and in an orderly fashion.

11. The **Timekeeper** should note down in writing the following information as the Medical Emergency is ongoing and then provide the information to the **Supervisor** when asked to do so:

- the time that the Medical Emergency was declared
- the nature of the injury or condition
- the names or roles of those attending to the Boxer
- the time that the paramedics arrived to treat the Boxer
- the amount of time CPR was administered
- the time that the Boxer was taken to hospital
- the hospital to which the Boxer was taken
- who travelled with the Boxer to hospital?

FOLLOWING A MEDICAL EMERGENCY

1. All individuals involved in the Medical Emergency (including, but not limited to, the **Ringside Doctor**, **Referee**, **Boxer's Coach**, **Timekeeper** and **Appointed Individual**) must provide their observations of the events leading up to the Medical Emergency and actions taken in response to the Medical Emergency to the **Supervisor**. The **Supervisor** should take a written note of these observations immediately following the Medical Emergency and before any of the individuals leave the venue (save for any individual attending hospital with the Boxer).
2. The written note should (as a minimum) set out the following details: (i) the name of the person making the statement and their contact details; (ii) their position (i.e. **Boxer's Coach** or member of the public); (iii) where they were positioned when the Medical Emergency unfolded; (iv) what they saw and whether their sight was in any way impeded; (v) what action they took (if any) and what action was taken by others around them; and (vi) in their view what caused the Medical Emergency. The written note should be signed by the individual giving the statement and retained by the **Supervisor** until he/she is able to provide the note to the **Head of Compliance** for England Boxing.
3. The **Supervisor** must inform the **Head of Compliance** by telephone as soon as the Medical Emergency has passed (i.e. the Boxer has been taken to hospital or a decision has been made by the attending medics that hospitalization is not necessary). As soon as practicable, the **Head of Compliance** will inform the CEO of England Boxing by telephone and the Regional Association Secretary.
4. If the **Supervisor** considers the Boxing event can continue, the **Supervisor** must ensure the **Ringside Doctor** and all medical equipment are in position before allowing the next bout to commence. If the injury to the Boxer involved a cut and blood remains in or around the ring, this should be cleaned using the appropriate kit [by whom? Ringside Doctor?] If any equipment is missing, or the ring has not been cleaned as required, the tournament should not continue.

INVESTIGATION OF A MEDICAL EMERGENCY

1. In order to comply with national investigations protocols and reporting obligations, all Relevant Persons (as defined at paragraph 1 of the England Boxing Disciplinary Procedure) must provide all reasonable assistance to England Boxing in any investigation of a Medical Emergency.
2. Any failure to provide reasonable assistance may be regarded as misconduct which may lead to disciplinary proceedings being instigated by England Boxing under its Disciplinary Procedure.

Annex B2

EMERGENCY ACTION PLAN FOR A MEDICAL EMERGENCY INVOLVING AN OFFICIAL OR SPECTATOR THAT REQUIRES THE RINGSIDE DOCTOR ("EAP2")

This EAP2 should be read in conjunction with EAP1 (Medical Emergency Involving a Boxer) and Annexures A1, A2, A3, A4 and A5 which outline the general duties of designated England Boxing officials. The definitions in EAP1 are adopted in this EAP2.

BEFORE A BOXING EVENT

Paragraphs 1, 2(a) and 2(e) of EAP1 are applicable to this EAP2.

MEDICAL EMERGENCY RESPONSE PLAN

12. If it is brought to the **Supervisor's** attention that an Official or Spectator has been injured at a Boxing Event (the "**Injured Person**") and requires urgent medical treatment, the **Supervisor** must suspend the bout by informing the **Referee** and ask the **Ringside Doctor** to assess and treat the Injured Person¹.

13. The **Ringside Doctor** will assess whether the injury or condition of the Injured Person is a Medical Emergency and, if so, will inform the **Supervisor**. If requested by the **Ringside Doctor** (and in the absence of a paramedic), the **Supervisor** should ask the **Announcer / MC** to call for any qualified traumaprofessionals to make themselves known.

14. The **Supervisor** should instruct the **Appointed Individual** to call 999 immediately providing all relevant information to the ambulance service. Upon arrival, the **Appointed Individual** should meet the paramedics and guide them to the Injured Person.

15. The **Supervisor** should ensure that the area around the Injured Person and the **Ringside Doctor** and/or paramedic remains clear with assistance from security personnel if needed.

16. If the **Supervisor** decides that the Boxing Event cannot continue, the **Announcer / MC** should make an announcement and request that the venue is cleared as quickly as possible.

17. The **Supervisor** should speak to the officials, Coaches and Boxers and make a decision as to whether to postpone the bout or apply paragraph 12.1.2(i) of the England Boxing Rule Book 2023/24.

18. If the **Supervisor** considers the Boxing Event can continue, the **Supervisor** must ensure the **Ringside Doctor** and all medical equipment are in position before allowing the suspended bout to resume or the next bout to commence if the incident has occurred between bouts or at the end of a bout.

19. Any person treating the Injured Person should use Personal Protective Equipment when doing so. As a minimum, this should include wearing gloves [and a mask].

BOXER 18 YEARS OLD & UNDER - CONCUSSION PROTOCOL

Subcommittee Version 1.0, Updated

Head Injury, Concussion & Returning to Boxing Advice (for Boxers aged 18 & under)

Name: _____ DoB: _____

This Boxer sustained a head injury at _____ on _____.
(Time) (Date)

You were assessed by a doctor following your bout and no signs of serious complications were found. It was felt you are safe to be accompanied home and do not need to attend hospital at this stage.

When you get home, it is unlikely that you will have further significant problems, although you should remain in the supervision of a responsible adult for the rest of today and overnight.

If you are affected by any of the following, you should go to the nearest hospital emergency department as soon as possible:

- **unconsciousness or lack of full consciousness,**
- **very painful headache that will not go away,**
- **vomiting – getting sick,**
- **confusion (not knowing where you are, getting things muddled up),**
- **fits (collapsing or passing out suddenly),**
- **weakness in one or both arms or legs,**
- **problems understanding or speaking,**
- **loss of balance or problems walking,**
- **problems with your eyesight,**
- **clear fluid coming out of your ear or nose,**
- **bleeding from or new deafness in one or both ears,**
- **drowsiness (feeling sleepy) that goes on for longer than 1 hour when you would normally be wide awake.**

Concussion

Concussion is a disturbance in brain function (i.e. brain injury) caused by a direct or indirect force to the head. It affects how the brain works but does not show up on any scans or X-rays. It can result in a variety of signs and/or symptoms & most often **does not** involve loss of consciousness.

Most (80–90%) concussions resolve in a short (7– 10 day) period.

Symptoms normally start shortly after injury and gradually improve by themselves but can be delayed.

One or more of the following common symptoms may develop over the next few days and likely do not require a hospital visit:

- **Headache**
- **Dizziness**
- **Nausea**
- **Unsteadiness**
- **Restlessness**
- **Slowed reactions**
- **Memory problems**
- **“Feeling in a fog”**

- **Irritability**
- **Anxiety**
- **Feeling depressed or tearful**
- **Difficulty concentrating**
- **Poor attention**
- **Sleep disturbance**
- **Low energy**
- **Sensitivity to light or noise**

Dos and Don'ts

- ✓ **DO** have plenty of rest and avoid stressful situations
- ✓ **DO** take painkillers such as paracetamol for headaches
- ✓ **DO** inform a friend or family member about your injury so they can keep an eye on you
- ✗ **DON'T** stay at home alone for the first 24 hours after injury
- ✗ **DON'T** drink alcohol
- ✗ **DON'T** drive until you have recovered
- ✗ **DON'T** take aspirin, ibuprofen or sleeping tablets

Treatment of Concussion

To allow the brain time to fully recover and reduce the chance of any longer-term problems you should have a period of rest, with no training or playing sport, and then adjust your activity for a period of time.

The first step is to **avoid all physical activity and any activities which require concentration or attention for 24-48 hours**. This includes minimizing time using mobile phones or the internet for emails & social media, watching TV or movies, reading and all forms of training & exercise.

Return to School

Concussion can affect your ability to learn and mental activity may worsen symptoms. You might need to miss a few days of school. When going back to school, you may need to go back gradually and have some changes to your schedule, so that symptoms do not worsen. You **should not return to sport until you have returned to full school / learning**, without symptoms.

After this time, you should gradually increase your daily activity level, as long as symptoms do not worsen. Once you have successfully returned to your usual daily activities, without any symptoms, then continue this period of relative rest for the **remaining duration of your medical suspension period** (minimum 30 days).

If you still have symptoms 4 weeks post injury, you should see your GP

Return to Boxing

Once your suspension is complete (and you have been **symptom free** for at least 2 weeks), you may move onto 'Step 2' of the gradual return to boxing programme (as detailed overleaf) and begin doing light aerobic exercise.

If any symptoms recur upon starting exercising, you should stop and return to 'Step 1' until you are again symptom free for 48 hours.

If you are able to train at 'Step 2' without developing any symptoms for 48 hours, then you may move onto 'Step 3'.

You should repeat this pattern of spending **at least 48 hours symptom free at each step** before moving on to the next, higher-level step.

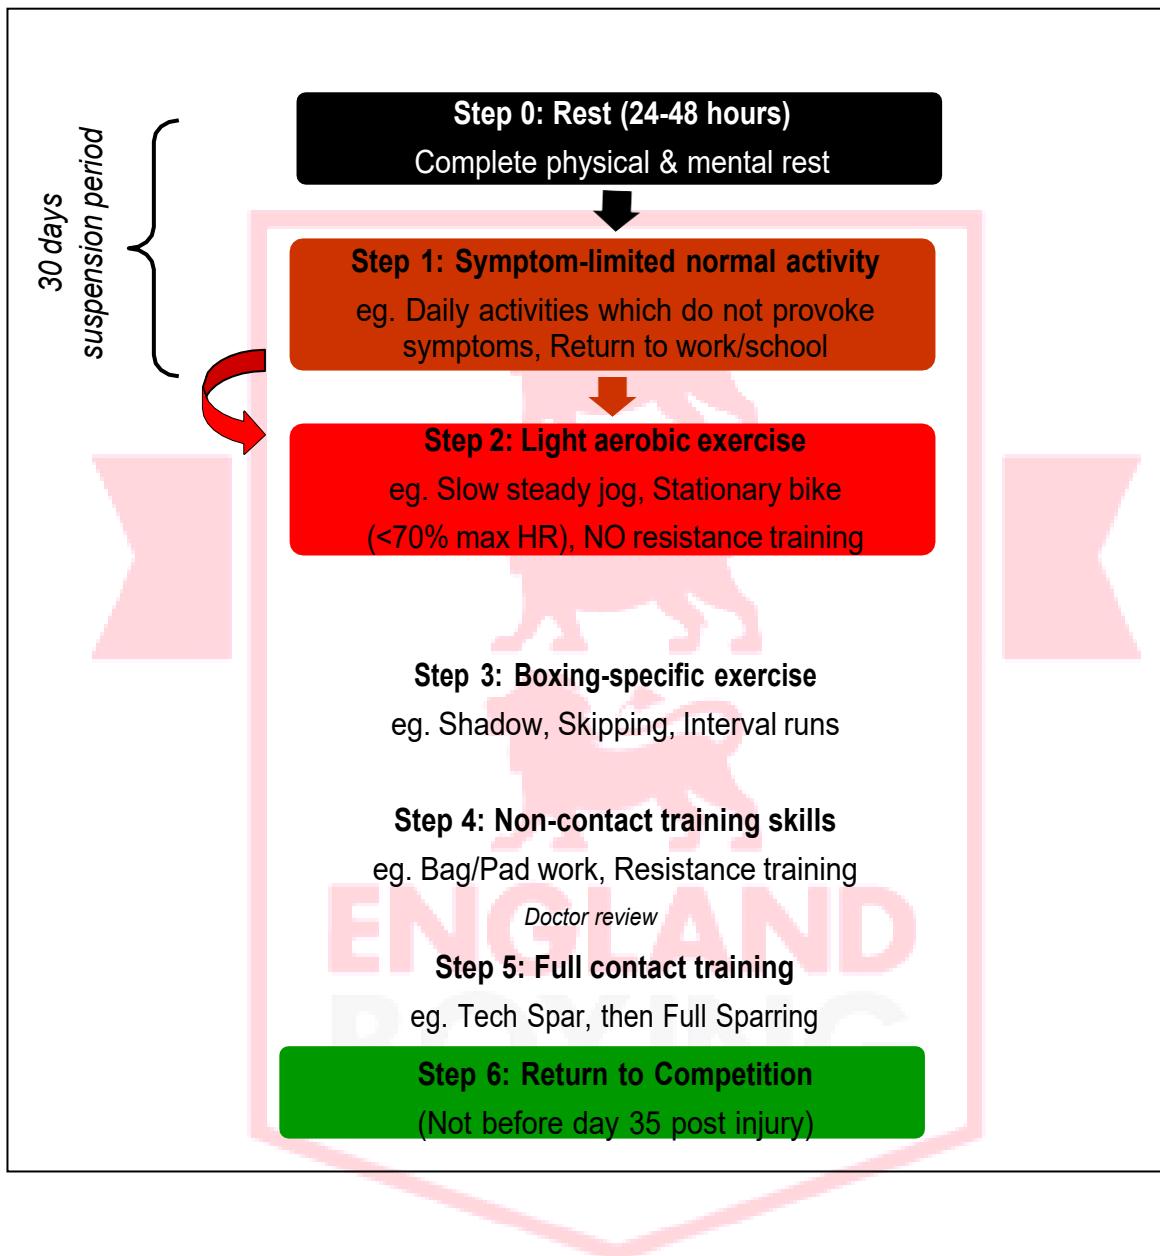

If you develop symptoms **at any stage**, you should rest for 48 hours before then going back to the previous step in the chain.

Prior to reaching 'Step 5' and returning to sparring, you **MUST** see a doctor for a more detailed assessment and to gain medical clearance to safely return to full contact training.

Annex C1 The Pre-Bout, Bout And Post-Bout Announcements And Round Interval Procedures

1. Pre-Bout Procedures

- 1.1. Each Boxer is invited to the ring by the Announcer / MC, this may be by corner, normally Red followed by Blue or both Boxers may arrive at the same time.
- 1.2. Ring walk music must not include expletive or offensive language.
- 1.3. Once the Boxers arrive ringside a qualified Official will inspect bandages/wraps before allowing the Boxer to glove up. Unless the Supervisor has appointed a suitable official to inspect the bandages.
- 1.4. Once the Boxer is ready the Referee will allow the Boxer to enter the ring, once in the ring the Referee will approach each Boxer in turn to check the Boxer is adhering to remainder of the dress regulations.
- 1.5. The Announcer/MC may take the opportunity to confirm the Boxer's details and pronunciation of their name.
- 1.6. Once the Referee is content the Announcer/MC will introduce each Boxer in turn, red then blue.
- 1.7. The Referee will call both Boxers to the centre of the ring for final instructions.
- 1.8. Handshake - At this point Boxers are to shake hands or touch gloves in a sporting manner.
- 1.9. The Referee will then send Boxers to their corners to await the start of the bout.
- 1.10. The Referee will check that the officials are present at ringside.
- 1.11. The Referee checks with the Supervisor for permission to start the bout.
- 1.12. The Referee signals the Timekeeper to sound the Bell.
- 1.13. On the sound of the bell the Referee issues the command "BOX".

2. Round Interval

- 2.1. At the sounding of the bell at the conclusion of a round, both Boxers are to return to their designated corners.
- 2.2. Coaches – 3 Coaches may attend a Boxer during the round interval as follows:

3.2. On receipt of all the final scores from the Judges the Supervisor tallies the scores and passes the details of the result to the Announcer/MC.

3.3. The Boxers are called to the centre of the ring where hand wraps are checked for legality; any issues are to be brought to the attention of the Supervisor immediately and prior to the announcement of the result.

3.4. On the announcement of the result the hand of the winning Boxer is raised by the Referee.

- For Championships if the decision is a Split Points Decision the Announcer/MC is to announce the score i.e. 3:2, 4:1, 3:0 or 4:0

3.5. The Boxers are to shake hands at this point.

3.6. Both Boxers exit the ring through their designated corners and undergo a post-bout medical.

3.7. Prizes are traditionally awarded at this point, however this may take place in the ring.

3.8. On completion of the Post-Bout medical the Supervisor and Ringside Doctor or Recorder (as directed by Supervisor or Doctor) are to complete the relevant sections of the Digital BCR1 along with any medical suspension.

3.9. If a medical suspension has been awarded, then the Coach is to be briefed by the Doctor on any effects that may occur due to the reason for the Medical Suspension:

1. Cut – information on any ongoing treatment i.e. stitch removal.
2. KO or RSC with no sign of concussion – The Coach is to be issued with a T10 form - **England Boxing Medical Care of a Boxer After a Contest**. Coaches are to be briefed by the Doctor on the contents of the form and how to act should the Boxer present with any of the symptoms listed on it.
3. Concussion – Coach to be issued with a T10 form - **England Boxing Medical Care of a Boxer After a Contest** and a concussion protocol appropriate to the age of the Boxer. A comprehensive explanation is to be given to the Coach of the Boxer on how to manage the Boxer.

Annex C2 - Skills Bouts

1. What is a Skills Bout?

1.1. Skills bouts have a valid place within our sport and the rules concerning such bouts should be clear and must meet the aims for all involved; Boxers, Coaches, Officials, and parents/guardians.

1.2. A skills bout is designed to;

- Bridge the gap between the gym and competitive boxing.
- Teach and improve boxing skills.
- Gain and improve the confidence of young Boxers.
- Allow young and nervous Boxers to perform in front of friends and family.
- Give young Boxers the skills needed for a competitive bout.
- Help attract and retain young Boxers in the sport.
- Help parents/guardians acclimatize to the boxing environment.

1.3. The key elements of a skills bout should be for young nervous Boxers as a means of introducing them to boxing to gain experience and confidence at the earliest stages of their boxing career. A skills bout should be a vehicle to help to bridge the gap between sparring in the relatively comfortable environment of their club and the often daunting competitive environment of a boxing show.

2. The Aim of the Skills Bout

2.1. A skills bout must be undertaken in a strictly controlled manner ensuring that the following behaviour is positively encouraged:

- Good sportsmanship
- Demonstration of learnt boxing skills
- No heavy punching
- No aggression
- No threatening behaviour or intimidation

2.2. It is imperative that every person involved in a skills bout knows exactly how the process works and fully understands the reason why a skills bout is being undertaken. The Announcer is to announce a skills bout as such and using the bullet points above explain the process and outcome for spectators.

3 The Rules of a Skills Bout

3.3 **A Skills bout must be announced as such** - It is important that the Announcer announces that a skills bout is taking place and briefly explains to the spectators its purpose and its outcome. This is to ensure that the correct environment is set before the bout starts.

3.4 **Bouts including a 10-year-old Boxer will be 3 x 1-minute rounds with a 1-minute interval between rounds** – This is in line with the round durations of competitive minor's bouts.

3.5 All other skills bouts will be 3 x 1.5 minute rounds with a 1-minute interval between round – This is in line with schools age bouts and gives the Boxers enough time to show their skills without becoming too fatigued.

3.6 Coaches are not permitted to Coach from the corner during a Skills bout – This ensures that coaches do not encourage their Boxers to become too aggressive and over excited. The 1- minute interval between rounds is ample time for a Coach to give the Boxer any necessary instructions and encouragement.

3.7 A Boxer may only have 6 skills bouts in total, and then they must box competitively – If carried out correctly, 6 skills bouts will give a young Boxer ample experience to be able to undertake a competitive bout. Any shortfall in a Boxer's skill should be addressed in the gym during sparring.

3.8 No skills bout will be permitted with a weight difference in excess of 2kg – Although power and hard punching are discouraged during a skills bout, the weight differential should be minimal to ensure the safety of both Boxers.

3.9 Boxers must be within 12 months of each other in age – This is in line with the current rules for minors and schools aged Boxers.

3.10 A Boxer can have a skills bout from their 10th birthday up to the day before their 16th birthday – The older and heavier Boxers are, the more difficult a skills bout is to manage for both the Coach and the Referee. Generally, an older Boxer is looking to show off to friends and family and tends not to follow the spirit and rules of a skills bout. This then leads to heavy punching and aggression which lends itself to a competitive bout rather than a skills bout. The spirit of a skills bout is to give confidence and experience to young, nervous Boxers.

3.11 A Boxer cannot have a skills bout once they have taken part in a competitive bout – A skills bout should be used to build confidence and experience leading up to a competitive bout. After a competitive contest, any shortfall in skill should be addressed in the gym during sparring.

3.12 All skills bouts must be recorded on the Boxer's Locker account and on the T6 Recorder's sheet – A clear record of skills bouts must be kept in the same way as competitive bouts.

3.13 1 skills bout = 0.5 competitive bout – Although they are not judged and there is no decision, a skills bout still gives a Boxer a level competition experience. This bout ratio will ensure an even match is made between Boxers when they transition from a skill bout to a competitive bout.

3.14 If the Supervisor and Referee are both in agreement that a Boxer has advanced beyond skills bouts, 'No Further Skills Bouts' can be declared on the Boxer's Locker account – This ensures that Boxers taking part in a skills bout are evenly matched and that there is not a large difference in skill levels.

3.15 A maximum of 4 skills bouts per club tournament shall be allowed unless it has been advertised as a skills show – Any Boxer under the age of 16 years old must not be allowed to compete after 10:30pm.

3.16 No competition bouts are allowed on a skills show – A skills show must be conducted in the same way as a competitive show except that ringside Judges are not required.

4 Officials and Coaches responsibilities during a Skills Bout

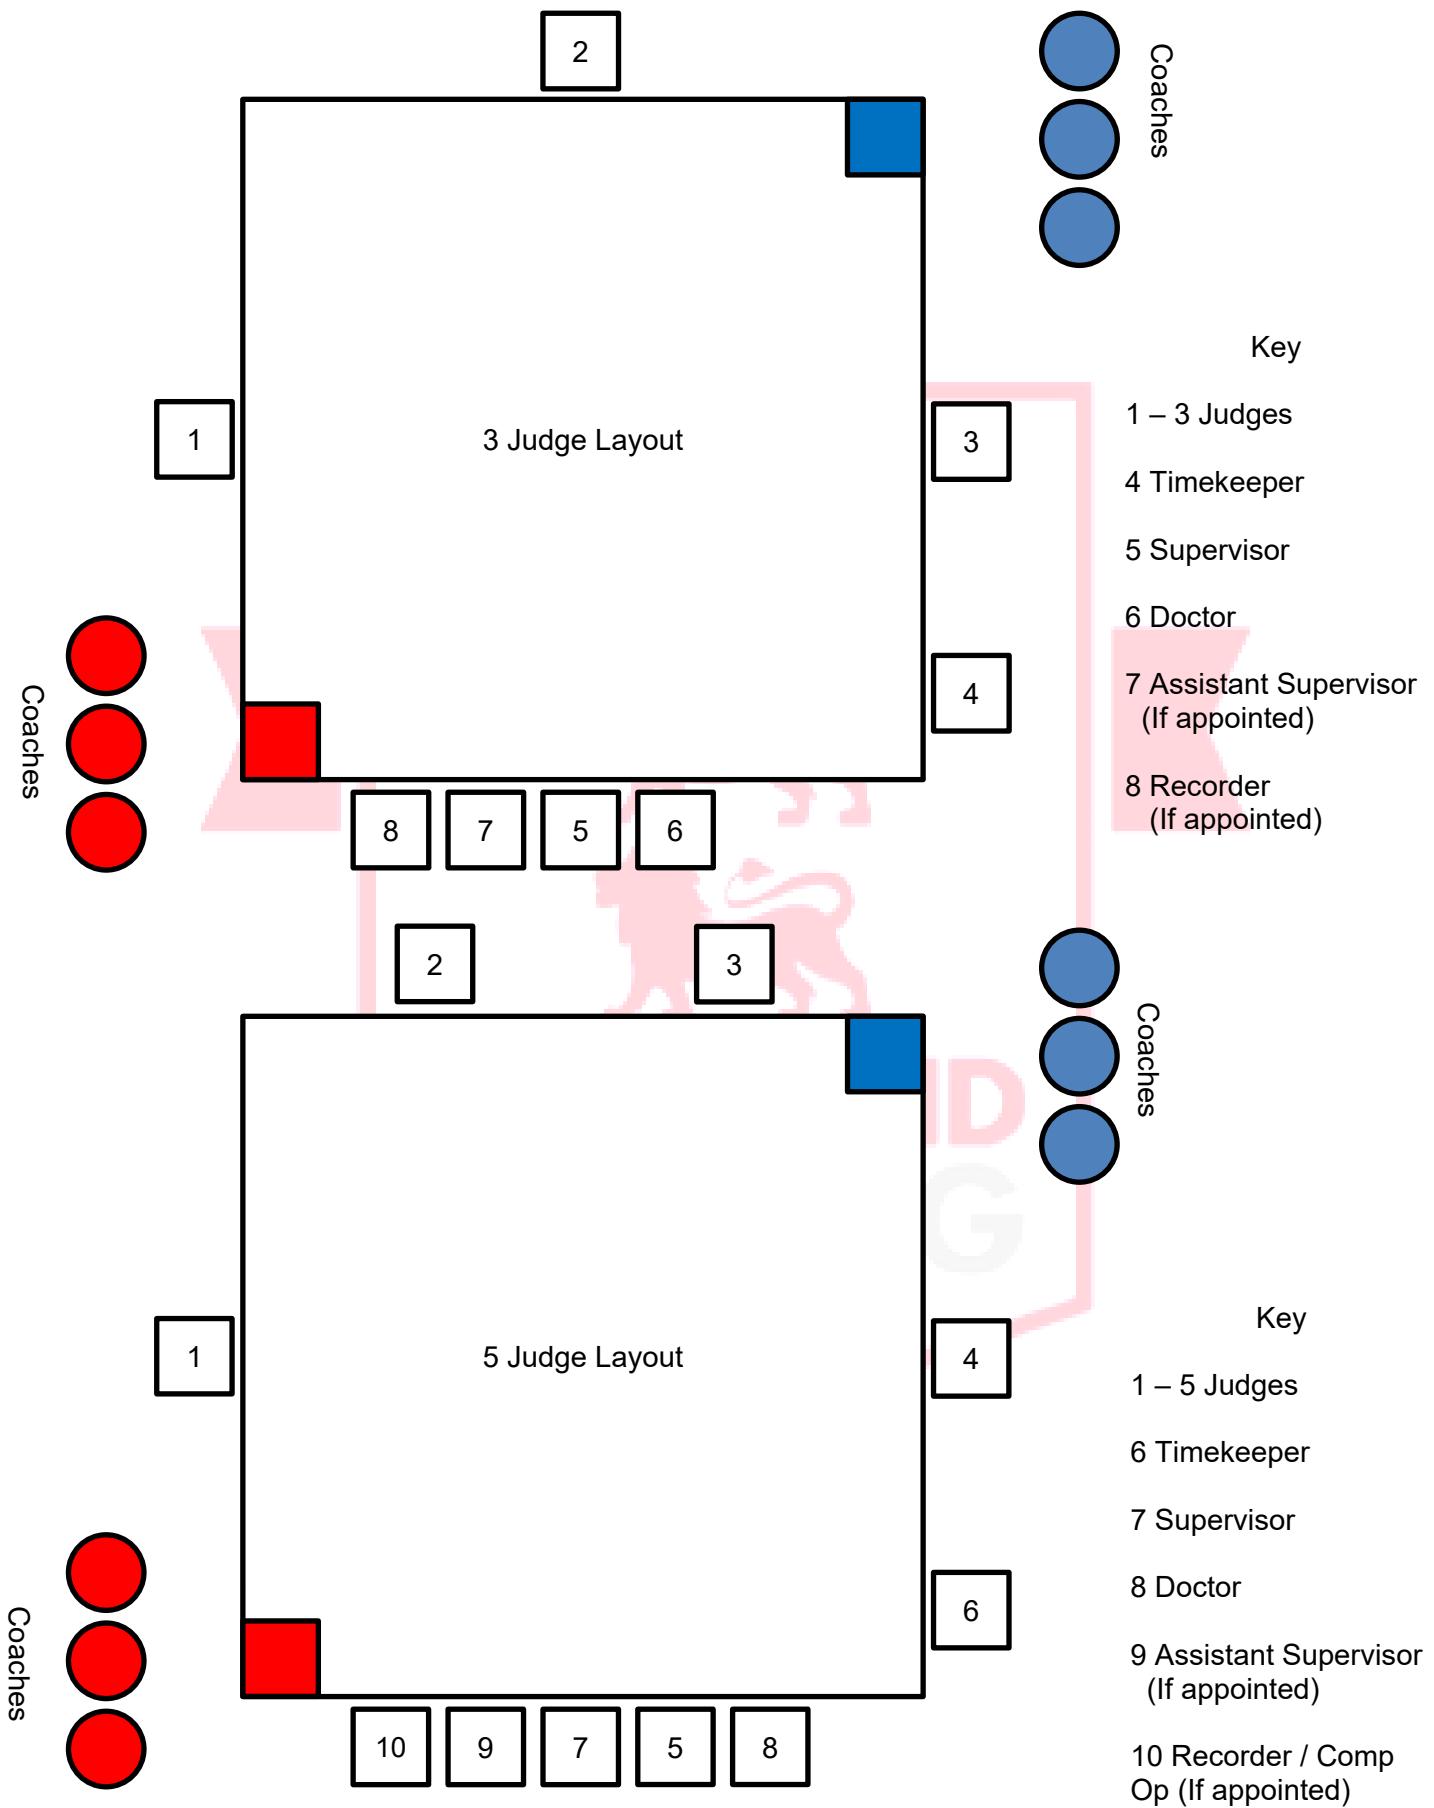

4.1. **Supervisor's Responsibility** - The Supervisor must be present at a skills bout and must ensure the Boxer's ages and weights are within the allowed tolerances set out in the England Boxing rule book. The Supervisor has the right to request the Referee to stop a skills bout at any stage if he/she feels that the bout is not being carried out in the way in which it is intended. If the Supervisor feels that a Boxer has advanced beyond the level required by a skills bout, they must consult with the Referee and ONLY if both are in agreement, 'No Further Skills Bouts' should be added in the Boxer's Digital BCR1 card.

4.2. **Referee's Responsibility** - The Referee must ensure that skills bouts are very strictly controlled, and that Boxers and Coaches know their responsibilities. If a Boxer fails to adhere to the rules or spirit of the bout, a caution should be issued. If his/her cautions are not heeded, the Referee has the right to stop a skills bout at any stage if they feels that the bout is not being carried out in the manner in which it is intended.

4.3. **Coach's Responsibility** - A Coach must fully understand the rules of a skills bout and the manner by which it is to be carried out. The Coach must ensure the bout runs according to the rules and in the spirit in which it is intended, ensuring there is no heavy punching, aggression, or unsportsmanlike behaviour during the bout.

4.4. **Announcer Responsibility** – The Announcer is to announce that a skills bout is taking place and briefly explains to the spectators its purpose and its outcome. This is to ensure that the correct environment is set before the bout starts.

Annex C3 - Boxing Ring Layout

**Audience seating may not be closer than 2 metres from the edge of the ring platform to the front row.*

5. Ring Walk Music

When ring walk music is permitted it must not include expletive or offensive language of any kind.

6. Boxers - Eligibility

- 6.1** Any new Boxer wishing to compete in an England Boxing Championships, must have been an Active Member of England Boxing via The Locker for a minimum of three months prior to the entry deadline of the respective competition. This applies to new members only and does not include Boxers who have had continuous membership with England Boxing.

- 6.6 Bout Eligibility** – Boxers are required to meet the bout experience entry limits (both Upper and Lower limits) which must include at least one recorded competitive England Boxing contest. The rest of the minimum criteria can be made of any combination of the following: previous combat experience, skills, or EB bouts.
- 6.7 Bout History** – All boxers are required to have a complete and accurate boxing bout history on their Locker profile. Inaccurate declarations will render a boxer ineligible and they will be excluded from the Championship regardless of any previous progress.
- 6.8 Declarations of experience** – all Boxers and clubs are responsible for a clear, accurate and honest declaration of any previous individual contact sport experience. If there is any doubt as to the validity of the declaration it is the responsibility of the Boxer to prove the accuracy of the declaration. A conversion matrix for declared experience from other individual combat sports can be found at Section 1 of this rule book.
- 6.9 Failure to declare experience** – Boxers who are found to have failed to declare their previous combat experience honestly and correctly will result in the removal of their Digital BCR1 until the matter is resolved, and expulsion from the competition by the Championship Committee.

The number of accredited Coaches for a club in Championships are based on the number of Boxers representing the club as follows:

- 1 Boxer = 3 Coaches
- 2 Boxers = 4 Coaches
- 3 or more Boxers = 6 Coaches

Only 3 Coaches are permitted to second a Boxer at ringside.

8. Officials

All officials must be registered with England Boxing and be in possession of their in date lanyard and their Official registration book.

The appointment of officials should where possible be equitable across the region or regions participating.

All officials should conduct their duties to the best of their ability, and in a professional manner at all times.

All Championships have a requirement for officials; the number and qualifications per ring are:

9. Championship Weigh in

Each weigh in must be conducted by a qualified and registered Official who holds a valid Enhanced DBS Certificate appointed by the Officials Appointments Secretary of the region hosting the Championships, or by England Boxing depending on the stage of the Championship.

Should any Boxer be under the age of 18; the Child Protection Officer must be in attendance throughout the Weigh in.

For Open Championships or Tournaments where a draw is required at the conclusion of the weigh in, it is recommended that the weigh in be completed 3 hours prior to boxing commencing.

For subsequent rounds of tournaments where Boxers have previously weighed in and the draw is known in advance the weigh in must be completed 1 hour prior to boxing commencing.

The Weigh in is not to take place in the open, but in an enclosed room or area.

Where possible, separate weigh in rooms are to be allocated for male and female Boxers.

Where separate rooms are not available, male, and female Boxers are to be weighed in at different times.

Male and Female Boxers must not prepare for weigh in until inside the designated room. The outer garments must not be removed until in the confines of the weigh in room.

Male and female Boxers must not be in the weigh in room at the same time.

All Championship weigh ins must be conducted on digital scales with a valid calibration certificate.

Scales must be placed on a hard floor or surface and not rubber, carpet or similar.

Weigh in Officials should be the same gender as the Boxers where possible; when this is not possible a chaperone must be in attendance.

Only weigh in Officials, the Boxers and one Coach per Boxer are permitted in the weigh in room.

Boxers dress, both male and female, at a championship weigh in:

- Schools Championship – Shorts & Vest

- Junior Championship – Shorts & Vest
- Youth Championship – Shorts & Vest
- Development Championship -Shorts & Vest
- Women's Winter Box Cup – Shorts & Vest
- National Amateur Championships – underwear (may make weight naked if required).

*Shorts are specified as outerwear, boxer shorts are not outerwear.

For the General Weigh In, at a tournament or the first weigh in when entering a Championship, the registered Boxer's weight must not exceed the maximum of the Boxer's Weight Category nor be below the minimum of the Boxer's Weight Category. The weight registered at the General Weigh In decides the Boxer's Weight Category for the entire competition.

At the Daily Weigh In, or the Weigh In at subsequent rounds of championships, only the maximum weight limit will be controlled, not the minimum weight limit. If a Boxer exceeds the maximum weight limit at the Daily Weigh In, that Boxer will not be allowed to continue the competition, and the opponent will win by Walkover.

Boxers may transfer weight categories up until the initial weigh-in or regional deadline, whichever is earlier. The Boxer's weight recorded by the Supervisor at the initial weigh-in or regional deadline will determine the category of the Boxer. Please note that if a Region opts to use the regional deadline, they must not also use initial weigh in as part of the entry process and vice versa.

During the weigh-in period, Boxers may have as many check weighs as required.

Permissible weight loss and weight allowances for each age category is stated on the championship weights page for each category at the end of this Annex or Section.

A Boxer will not be allowed to change weight category after the initial weigh-in/regional deadline unless no other boxer has entered across the country in that weight category. This move can only be sanctioned by the Championships Co-ordinator, who will be responsible for informing all affected Boxers/Clubs. Boxers will not be able to change weight category if they have already boxed in this Championships at another weight

Weight Allowances for Schools & Junior Boxers will be in effect from pre quarter finals onwards.

10. Bandages/Wraps

EB approved hand wraps must be worn in all championships.

11. Championship Progression In Case Of Extra Ordinary Circumstances

If a Bout cannot take place because both Boxers cannot compete, at any stage of Competition before the semi-finals, the opponent in the next round will win by walkover.

If a semi-final Bout cannot take place due to both Boxers failing the weigh-in or failing to show, both will be disqualified from the semi-final and will not be eligible to receive a medal.

If both Boxers were not allowed to compete by medical decision or force majeure, both Boxers will receive a bronze medal in addition to the loser of the other semi-final bout.

If a final Bout cannot take place due to both Boxers failing the weigh-in or failing to show, both will be disqualified from the final and will not be eligible to receive a medal.

If both Boxers were not allowed to compete by medical decision or force majeure, both Boxers will receive a silver medal, the two Boxers will be ranked second.

If both semi-final Bouts cannot take place, four (4) Boxers will be ranked third.

12. Championship Entry Infringement Protocols

12.1 Introduction

England Boxing is proud to acknowledge that the vast majority of its Boxers, who choose to enter England Boxing National Championships, do so honouring both the letter and spirit of the rules.

Regrettably, there will always be a very small minority who seek to gain an unfair advantage by any means possible – these rules have been devised to protect the interests of the majority.

12.2 Rule 1

Boxers may only enter England Boxing National Championships through a Regional Association.

- **Entry to such a Championship will be withheld by the Regional Executive Committee if it concludes that a Boxer has transferred club that lies within another region within 1 calendar month of the opening date for entries for the competition. Transfer of boxers within a region is not restricted as long as the boxer and club adhere to the bullet point below regarding number of bouts at new club.**
- Any other matter that the Regional Executive Committee considers relevant.

Subject to ratification by the England Boxing Championships Sub Committee, any decision of a Regional Executive Committee will be final.

12.2 Rule 2

The default position is that, after a contest; (i) the losing Boxer will be eliminated from the competition; and (ii) the winning Boxer will advance.

If, however, Winning Boxer's entry to the competition was made in bad faith – namely by

failing to declare: (i) all of their England Boxing contests; (ii) their previous combat experience; or (iii) any other factor which increases their boxing experience, then:

- The Winning Boxer will be eliminated from the competition.
- The Winning Boxer results in that competition will be rendered null and void.
- The circumstances of the Winning Boxer entry will be referred to the EB Compliance Team for investigation under the England Boxing Disciplinary Procedure.

In the event that the Winning Boxer is eliminated from a competition, the last Losing Boxer to have fought the Winning Boxer may be reinstated to the competition, subject to the following:

- Only the last Losing Boxer to have boxed the Winning Boxer may be reinstated to the competition.
- Any Losing Boxer who was Knocked out (KO), subject to a stoppage through injury or otherwise, deemed unfit to box, will not be reinstated to the competition, unless it is to receive a prize, if/where applicable.

In determining whether Winning Boxer's entry to the competition was made in bad faith, and whether a Losing Boxer may be reinstated to the competition, the following procedure will be adopted:

- By midday, on the Tuesday after the previous round, any complaint about Winning Boxer's entry to the competition should be set out in writing, together with supporting material; and served on the England Boxing Championships Sub Committee ["EBCSC"].
- Any complaint made without supporting material will be summarily dismissed and the complainant(s) will be referred to the EB Compliance Team, for investigation under the England Boxing Disciplinary Procedure.
- By no later than midday on Wednesday, the EBCSC will hand down a preliminary ruling, stating whether the complaint is upheld or dismissed.
- If the complaint is dismissed, that is the end of the matter and Winning Boxer will continue in the competition; if the complaint is upheld, Winning Boxer shall have the right to challenge this preliminary ruling.
- Any challenge to a preliminary ruling must be set out in writing, together with any supporting material, and served on the EBCSC within 12 hours of the preliminary ruling being handed down.
- On receipt of a challenge, the EB Championship Sub Committee will hand down a final ruling, by 4pm on the following day, stating whether the complaint has been upheld or dismissed.
- If the challenge is upheld, that is the end of the matter and the Winning Boxer will continue in the competition; if the challenge is dismissed, the Winning Boxer will be eliminated from the competition and Winning Boxer's results will be rendered null and void.

If, either as a result of a preliminary ruling not being challenged; or following a final ruling, a Winning Boxer is eliminated from the competition, England Boxing will send a notification of possible reinstatement into the competition to the Losing Boxer – this will be done as soon as reasonably practicable and, in any event, no later than 8 hours after the deadline for the handing down of a final ruling (whether such a ruling was required or not).

Within 12 hours of a notification of possible reinstatement being sent, the Losing Boxer will send a written confirmation, stating whether Losing Boxer wishes to be reinstated into the competition - for the avoidance of any doubt, any failure to send a written confirmation will

result in the Losing Boxer not being reinstated.

As soon as reasonably practicable, after receipt of the written confirmation, the draw for the competition will be amended, accordingly.

In coming to any decision, EBCSC will adhere to the rules of natural justice and determine issues on the balance of probability.

The final ruling of the EBCSC will be determinative and not subject to any appeal. Every effort will be made to enable the Losing Boxer to be reinstated but there is no guarantee that this will be achieved.

Complaints made after midday, on the Tuesday after the previous round, may still be considered but, in the event that they are upheld and due to time constraints, are unlikely to result in the reinstatement of Losing Boxer.

For the avoidance of any doubt, no round in a competition can be delayed to accommodate the reinstatement of a Losing Boxer.
